Projects

WebDevZone

https://github.com/AdamAliWeb/web-dev-zone

10/2023 - 02/2024

- Here, you'll find everything you need to become a skilled Front-End developer. My platform offers free, carefully selected online resources to help you at every step of your journey. Whether you're just starting out or want to improve your skills, I've gathered tutorials, guides, tools, and tips for you. The resources are not mine and they are not paid; they are in the public domain.

YouTube Info Gather

https://github.com/AdamAliWeb/youtube-info-gather

02/2024 - 03/2024

- This website helps you retrieve data from YouTube playlists. It can collect, save, and compare information from videos within a playlist. This is particularly useful because YouTube videos can be unexpectedly deleted, making it challenging to recover them.
